Dear Frank, Glen Neil, Hayden and Coney

St Michael's Collegiate – IF Lab Project

I would like to take this opportunity to express our sincere thanks to you for the way in which you managed and completed our recent IF Lab project. We are appreciative of the collaborative way in which the project was managed and for the steadfast presence of both Neil and Glen who dealt with all issues and requests in a calm and professional manner. We are extremely pleased with the completed project and are looking forward to the many ways in which our students will benefit from such a contemporary, innovative and creative space.

Due to current circumstances we have not been able to officially open the IF Lab as yet. Once the current situation has eased and things begin to get back to normal, we would be pleased to invite you as guests at our official opening.

Kind regards

Dr Adam Forsyth
Principal

Mr Fergus Leicester
Chief Operating Officer
